CHIANG MAI GYMKHANA CLUB

The Gymkhana Club at Chiang Mai in northern Thailand, was conceived in 1898 by a handful of expatriate gentlemen with the object of using the club as a means of encouraging sport in Northern Siam.

The club would also act as a focal point where members could meet up during their work breaks and together with their wives enjoy a haven of tranquility, malicious) gossip ,participate in various sports and relax with the tipple of their choice on the verandah whilst the heat of the afternoon sun gave way to cooling breezes from the adjacent mountains.
